

PRIME MINISTER . PREMIER MINISTRE

I would like to extend my warmest greetings to everyone taking part in the Marine Infrastructure National Workshop, organized by the Real Property Institute of Canada (RPIC).

Our country's modern, high-quality marine infrastructure contributes to a prosperous Canada. That is why our Government has invested unprecedented sums in Canada's infrastructure, including numerous projects aimed at improving our waterways. This approach seeks to facilitate the safe and effective movement of persons and goods, thus enabling our country to better position itself in global markets.

This workshop on marine transportation will provide participants with an unrivalled opportunity to discuss the latest issues affecting the industry and will help to build a stronger and more prosperous economy.

On behalf of the Government of Canada, I thank the organizers for their hard work and wish everyone a very productive workshop.
